

We are proud to present to you our very own lines of MED-certificated marine mattresses. We offer different sets of mattresses in various price ranges. The Standard mattress is part of the Marine line, which is focused on providing affordable sleeping solutions at sea. We offer an excellent price quality ratio with a great production capacity. Due to vacuum packing we can ship the mattresses economicaly worldwide. Feel free to ask us about different dimensions and thicknesses as to your requirements. On top of that, we can also provide you with additional boxsprings or bedding.

**Standard composition (with thickness 17 cm)**

1. Core: Bonell springs
2. Cotton felt of 5 mm thickness and unit area mass of 800 g/m<sup>2</sup>
3. PUR CV 3538 foam in 20 mm thickness and 35 kg/m<sup>3</sup>
4. 100% PP nonwoven interlining fabric with unit area mass of 50 g/m<sup>2</sup>
5. 100% PE nonwoven fabric with area mass of 200 g/m<sup>2</sup>
6. Mattress cover of woven fabric consisting of 46% PE and 54% PP and with unit area mass of 150 g/m<sup>2</sup>

## COMFIMAT STANDARD

The Standard mattress is for those who want a firm sleeping surface. This mattress is made of fire retardant materials. The Bonell spring core is covered with a high density comfort foam to maintain stability and boost durability. The springs offer top-quality support for the spine and prevent back pain. The coil wraps made from pressed cotton make the core sturdier and prevent the mattress from sagging - during sleep, you will not feel the coils at any chance. The open structure ensures a great air circulation which provides a fresh environment all night long.

The Comfimat Standard is suitable for box spring beds, slatted beds and metal frame beds.

This mattress is also available with a waterproof cover and handles on the sides to assist housekeeping.

- ✓ EXCELLENT PRICE QUALITY RATIO
